

Call for Papers (2nd Announcement)

2016 International Conference on Packaging Technology and Science
(ICPTS2016) & 16th National Conference on Packaging Engineering

September 22-25, 2016 Beijing, China

<http://www.bzdlx.net>

Sponsored by

Committee of Packaging Dynamics of Chinese Vibration Engineering

Journal of "Packaging Technology and Science"

China Packaging Association

Organized by

Beijing Institute of Graphic Communication, China

ORG Packaging Co., Ltd.

Ningbo Institute of Technology, Zhejiang University, China

Editorial Department of "Packaging Engineering"

MAIN TOPICS

Packaging Safety and Sustainable Development

OBJECTIVES

To strengthen the international academic exchanges and researches on packaging technology and science, and promote modern packaging industries, Committee of packaging dynamics of Chinese Society for Vibration Engineering, China Packaging Association will hold the 3rd international conference on packaging technology and science from September 22-25, 2016, Beijing, China.

We cordially invite you to submit abstracts to official e-mail (**icpts16@163.com**) and attend the conference for open discussions, networking and collaboration opportunities for advancement and innovation in scientific and technological topics related to package engineering, emerging frontier technologies and/or industries as well as new prospective market in ICPTS2016.

To find more information about ICPTS conference via our website: <http://www.bzdlx.net/>.

SCOPE FOR ICPTS2016

1. Transport Packaging

- (1) Packaging dynamics
- (2) Transportation packaging security
- (3) Packaging structure optimization
- (4) Intelligent logistics technology and its application

2. Advanced Packaging Materials

- (1) Nano-packaging materials
- (2) Functional packaging materials
- (3) Smart label materials
- (4) Green packaging materials.

3. Food packaging and safety

- (1) New technologies and process of food packaging
- (2) Packaging penetration and migration
- (3) Testing and safety assessment of harmful substances

4. Storage and preservation packaging technology for fruits and vegetables

- (1) Fresh-cut packaging
- (2) Selective permeability packaging
- (3) Modified atmosphere packaging
- (4) Preservation packaging technology

5. Packaging key technology and equipment automation

- (1) Packaging machinery design theory and methods
- (2) Packaging process optimization and equipment automation
- (3) Packaging machine vision

6. Packaging and printing

- (1) Green printed materials and fitness
- (2) Digital printing technology and application
- (3) Packaging printing and finishing technology
- (4) Printing quality and test
- (5) Anti-counterfeiting packaging

IMPORTANT DATES

Abstract submission deadline: **Dec 15, 2015**

Notification of Abstract acceptance: **Dec 30, 2015**

Full paper submission deadline: **April 30, 2016**

CONFERENCE PROCEEDINGS

All abstracts shall be published in the conference proceedings. After peer review following the guideline of publishers, the selected papers will be recommended to publish in the world nominated journals, **“Packaging Technology and Science”** and packaging related journals. If the submissions are in Chinese, the selected papers will be published in **"Packaging engineering"**, the core journal in China.

It is worth noticing that all submissions shall not have been previously published and should demonstrate new development in theoretical or applied area. In order to maximize the opportunity for global exchange, a maximum number of two papers from the same first author will be published in the proceedings.

Pls submit your manuscript to: **icpts16@163.com**.

NOTE

Any mail or e-mail must noted with ‘ICPTS2016’
